

Dynamic IT Leader with a proven track record at Magnet Logistics Corp, enhancing logistics operations by 80% through innovative software development. Expert in JavaScript, React, Vue, and problem-solving, I excel in transforming challenges into solutions, significantly boosting performance and efficiency. Fluent in English and Spanish, my collaborative approach and technical prowess drive success in fast-paced environments.

EXPERIENCE

JUL '23 - JUL '24

IT Leader | Magnet Logistics Corp, Miami, FL

- IT Lead Full Stack developer worked with a team for the development of a software for land logistics operations for the transportation of various cargoes.
- This software automated many of the daily logistic operation saving 80% of time.
- One of my responsibilities was to supervise and participate in the development, which included design, creation of APIs, application of good practices and others.
- For the front end we used technologies such as **HTML**, **SCSS**, **Tailwind** **JavaScript** and **Vue.js**.
- For the back end we used **Node.js**, **SQL**, **Digital Ocean**.

JUL '23 - APR '24

Full Stack Developer | Better Commerce, Santiago, Chile

- Worked with a team at one of Chile's largest e-commerce companies, developing new platforms, maintaining existing ones, applying new designs, improving the SEO of the pages, implementing new functions and features driving yearly revenue of \$15 million dollars.
- To develop and maintain the applications we used technologies such as **HTML**, **CSS**, **SCSS**, **JavaScript**, **React.js**, **Next.js**, **Redux**, **TypeScript** and **Adonis.js**.
- Collaborated with designers to create intuitive user interfaces for both mobile and desktop platforms.
- Managed source control repositories with Git, including branching strategies and pull requests.
- When I joined the team, they were in the process of migrating all their WordPress platforms to Next.js. Thanks to this, we managed to increase the performance of the sites by up to 70%.

JAN '23 - APR '23

Front End Developer | Led by Community, Norwich, UK

- Worked with a development team, helped create WordPress plugins to meet client needs, tailored solutions and improved existing applications. Played a key role in project success, enhancing teamwork, problem-solving, English proficiency, and programming skills.
- We used technologies like **HTML**, **CSS**, **JavaScript**, **React.js**, **SASS**, **PHP**, **GitHub**, and **MySQL**.
- Collaborated closely with the back-end developers to integrate API calls into the front-end codebase.

NOV '22 - DEC '22

Front End Developer | Eco Thaki, Arica, Chile

- Designed and built a web platform for the company "Eco Thaki" using **HTML, CSS, Bootstrap, JavaScript and React.js**
- The platform allowed the company's clients to learn about their services, rates and how to contact them
- Used different web design and development tools to create an intuitive and easy-to-use platform that contributed to the company's growth and improved its online presence.

DEC '20 - DEC '22

Front End Developer | Freelance, Arica, Chile

- I have designed and developed medium and small-scale projects and applications.
- Among them, I highlight applications such as a patient manager for veterinary clinics, real-time consultant of current values of various cryptocurrencies, a finance platform, a weather consultant, among others.
- Used technologies like **HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, React.js** and others.
- All these projects, and many more, are available in my portfolio, where you can examine my ability to effectively tackle different challenges and offer innovative and efficient solutions. <https://josiassalgado.netlify.app/>
